

BEE BOPPER II

WASP AND HORNET SPRAY

DESCRIPTION

Bee Bopper II kills wasps, hornets and yellow jackets from up to 20 feet away. Can be used indoors or outdoors.

FEATURES & BENEFITS

- Shoots a powerful stream up to 20 feet
- Fast knockdown formula
- Dual active ingredients
- High dielectric strength

RECOMMENDED USES

- Wasps, hornets, yellow jackets, and nests
- Outdoor areas and cracks/crevices
- Electrical equipment (power off only)

DIRECTIONS

For Control of Nests of Wasps, Yellow Jackets and Hornets:

The best time to spray the nest is in the early morning or early evening when the air temperature is cooler, most insects are in the nest, and little activity is observed around the nest opening. Spray only if the air is still. Stand at a safe distance from the nest and not directly under the nest. Hold container upright at arm's length and point the actuator at the nest. First spray the opening of the nest, then spray the nest until it is saturated. Treated insects may fall out of the nest. Any insects returning to the nest after treatment will be killed. Wait 48 hours before removing the nest. Do not remove treated plants contacted with spray. Ensure that spray will not damage these surfaces.

For Scorpions:

Stand 3–4 feet away and thoroughly cover the insect. Make sure scorpions are dead before removing.

For industrial use only. Refer to the product's Safety Data Sheet (SDS) for complete safety, handling, and first aid information.

PROPERTIES	
Color	Pale yellow tint
Fragrance	Petroleum solvent-like
Spray Pattern	Pinpoint/Needle Spray
Flash Point	226°F
Dielectric Strength	No data available
VOC Content	No data available
Propellant	Yes
PACKAGING	
Can Size	20 oz
Net Weight	14 oz
Extender Tube	No
Packaged	12 cans per case
Shipping Weight	14.45 lbs
DOT	
Ozone Depleting Compounds	No
VOC Compliant	No data available
Recyclable Packaging	Yes

BEE BOPPER II
WASP AND HORNET SPRAY**DIRECTIONS CONTINUED**

This product may stain or adversely affect vinyl, painted, and plastic surfaces. Avoid application to asphalt roofing shingles as staining may occur. Flush with water if contact occurs. Test in an inconspicuous area and recheck in a few hours to ensure that spray will not damage these surfaces.

For industrial use only. Refer to the product's Safety Data Sheet (SDS) for complete safety, handling, and first aid information.
