

BERRY-ZYME

ACTIVE ENZYME FORMULA WITH FRESH BERRY FRAGRANCE

DESCRIPTION

Berry-Zyme contains powerful enzymes, surfactants, and deodorizers that combine to eliminate tough odors throughout your facility: Specifically-targeted enzymes eliminate the source of the odors. Fresh berry fragrance provides long-lasting deodorizing. Super-concentrated for maximum economy. Versatile, water-based product can be used as a space spray, in mop water, and even as a light-duty cleaner.

FEATURES & BENEFITS

- Biodegradable
- Controls odors
- Deodorizer and waste digester in one
- Liquefies grease and organic buildup

RECOMMENDED USES

- Garbage areas, chutes, and dumpsters
- Hallways, elevators, and jail cells
- Grease traps, drains, and garbage disposals
- Marine, RV, and portable toilets/holding tanks
- Patient rooms, dormitories, and hotel rooms
- Pet areas and kennels
- Washrooms, locker rooms, and shower rooms

DIRECTIONS

- 1. Garbage areas, chutes, and dumpsters:** For long-term concentrated deodorizing, mix a 5:1 solution in a pump-up sprayer and completely saturate the area. To clean and deodorize, use 32:1 solution and a low-pressure hose end sprayer.
- 2. Hallways, elevators, and jail cells:** To eliminate odors, spray troublesome areas along baseboards and in corners with a 10:1 solution using a pump-up sprayer or trigger sprayer with a straight stream. To clean and deodorize, wipe or mop hard surfaces with a 32:1 solution.
- 3. Grease traps, drains, and garbage disposals:** To control odors and help with the digestion of organic waste, initially treat the drain with 6-8 oz of product. Follow up with weekly maintenance doses of 2-4 oz.

For industrial use only. Refer to the product's Safety Data Sheet (SDS) for complete safety, handling, and first aid information.

PROPERTIES	
Color	Light green to colorless
Fragrance	Berry Scent
Concentrate	No
pH	7-8
Density	None
VOC Content	None
PACKAGING	
12 x 1 qt	1440-12
DOT	
Not regulated	

BERRY-ZYME

ACTIVE ENZYME FORMULA WITH FRESH BERRY FRAGRANCE

DIRECTIONS CONTINUED

- 4. Marine, RV, and portable toilets/holding tanks:** After cleaning, pour 8 oz. of product into the tank for long-lasting odor control and to aid in the digestion of organic waste.
- 5. Patient rooms, dormitories, and hotel rooms:** Using a trigger sprayer at the broadest setting, spray a 20:1 solution in malodorous unoccupied areas.
- 6. Pet areas and kennels:** To eliminate odors, spray troublesome areas with a 15:1 solution using a pump-up sprayer or trigger sprayer with a straight stream. For daily cleaning and odor control, wash all hard surfaces with a 32:1 solution. A small amount may be put in all cage waste trays.
- 7. Washrooms, locker rooms, shower rooms:** For long-term concentrated deodorizing, spray all surfaces with a light mist of **Berry-Zyme** diluted 10:1 with water. Pay special attention around the base and sides of fixtures. To deodorize and clean, wipe, or mop surfaces with a 32:1 solution.

NOTE: Sustained contact with vinyl and other plastics may cause discoloration. Rinse overspray from these surfaces. Concentrated overspray may discolor carpeting, vinyl wallpaper, or vinyl flooring. Never use product undiluted for cleaning or spray deodorizing.

For industrial use only. Refer to the product's Safety Data Sheet (SDS) for complete safety, handling, and first aid information.
