

INSTA MELT FROST & ICE REMOVER TB-51500000-00

DESCRIPTION

INSTA MELT quickly and easily removes ice and frost from windshields, locks, doors, headlights, icy steps, equipment, and more. Improves visibility by preventing ice build-up and ice formation. Helps reduce fogging when applied to the inside of windows. Improves traction on extra thin ice when applied to wheels. Apply **INSTA MELT** to surfaces in advance to create a protective barrier that prevents ice formation for several hours, providing long-lasting protection in cold weather conditions.

DIRECTIONS

Brush away loose snow and ice on windshield. Be sure to keep can upright when spraying. Spray liberally on the surface to be de-iced. **To de-ice windshields:** Spray liberally and turn on windshield wipers for faster results. **To de-ice other surfaces:** Spray liberally and rub lightly with a cloth or absorbent paper towel. **To thaw a frozen lock:** Spray liberally directly into lock; wait approximately 30 seconds, then try key. Spraying door locks once a week will prevent future freezing. **To prevent fogging of inside windows:** Wipe with a clean cloth dampened with product.

FEATURES & BENEFITS

- Quickly Melts Ice & Frost
- Improves Visibility
- Helps Prevent Ice Formation
- Prevents Windshield Fogging
- Easy Spray-On Application

RECOMMENDED USES

- Vehicles
- Residential and commercial entryways
- Outdoor equipment
- Interior windows

PROPERTIES
