

PRO-ZONE

PENETRANT LUBRICANT DEMOISTURANT PROTECTANT

TB-20900000-00

DESCRIPTION

PRO-ZONE has four main functions:

1. It penetrates through rust and scale to loosen parts that have been frozen by corrosion.
2. It lubricates parts to ensure free and easy movement.
3. It demoisturizes and creates a waterproof film that dries out electrical equipment, inhibits corrosion, and prevents electrical discharge.
4. It protects and creates a non-drying film that seals parts against atmospheric and mild chemical corrosion.

DIRECTIONS

TO REMOVE CORROSION: Spray liberally directly on to dirt and scale. Allow to penetrate. Remove loosened scale, then reapply to leave an anticorrosive coating.

TO DISPLACE MOISTURE: Spray electrical equipment until thoroughly saturated. Allow to penetrate before attempting to restart, then re-apply to protect surface.

TO LOOSEN FROZEN NUTS AND BOLTS: Apply liberally to frozen nuts and bolts, hinges and sliding and rotating parts. Allow to penetrate into threads. Work parts back and forth, then re-apply to leave a never-dry, protective lubricating film.

FEATURES & BENEFITS

- Non-Chlorinated
- Non-Flammable
- Penetrates & Cleans
- Frees Frozen Fittings
- Leaves Protecting, Non-Drying, Waterproof Film
- Dries Out Electrical Equipment

RECOMMENDED USES

- Industrial maintenance
- Automotive repair
- Electrical systems
- Outdoor equipment

PROPERTIES

Color	Clear to Hazy Amber
Fragrance	Acetate
Spray Pattern	Stream/Jet
Flash Point	> 200 °F (93.3°C)
Dielectric Strength	Not determined
VOC Content	2%
Propellant	Yes

PACKAGING

Can Size	16 oz
Net Weight	11 oz
Extender Tube	Not determined
Packaged	12 cans per case
Shipping Weight	11.80 oz

REGULATORY

Ozone Depleting Compounds	None
VOC Compliant	Not determined
Recyclable Packaging	Yes

For industrial use only. Refer to the product's Safety Data Sheet (SDS) for complete safety, handling, and first aid information.
