

TYPHOON

PROFESSIONAL STRENGTH DRAIN OPENER

DESCRIPTION

Virgin sulfuric acid drain opener that quickly clears sinks, drains and toilets. *Typhoon's* professional strength dissolves hair, sanitary napkins, sludge, soap, coffee grounds, paper and grease. Safe for most drain systems, traps, pipes and septic systems when used as directed.

FEATURES & BENEFITS

- Dissolves Hair, Paper, and Grease
- Quickly Clears Sinks, Drains, and Toilets
- Safe for Most Drain Systems, Traps, Pipes, and Septic Systems When Used as Directed
- Virgin Sulfuric Acid Formula

RECOMMENDED USES

- Sinks, Tubs, and Toilets
- Floor and Utility Drains
- Septic-Compatible

DIRECTIONS

Remove all visible and standing water and temper fixtures with hot water before applying drain opener. Incorrect use may crack the fixture. After tempering, slowly pour a small quantity directly down the drain opening. DO NOT INHALE FUMES. If no bubbling occurs, add the balance of the dosage.

DOSAGE: Small Drains, traps, waste lines, toilets, and urinals - 8oz.
 3-4" lines - 32 oz.
 6-8" lines - 64 oz. (allow additional standing time)

After 15 minutes of standing time, slowly add 1 quart of cold water directly into the drain opening and wait another 5 minutes. If the line is clear, flush thoroughly with more cold water. Do not allow water to splash. Regular dosage will open most lines. If blockage persists, repeat dosage. When used as directed, drain opener will not harm drainage systems.

For industrial use only. Refer to the product's Safety Data Sheet (SDS) for complete safety, handling, and first aid information.

PROPERTIES	
Color	Tan
Fragrance	No scent
Concentrate	No
pH	<2 (1% DI water)
Density	No data available
