

# USR 2

## URATIC SALT REMOVER

### HEAVY DUTY DESCALER & TOILET BOWL CLEANER

#### DESCRIPTION

**USR 2** is a high-powered cleaning solution formulated to dissolve uric acid and calcium scale deposits—the leading causes of slow-running urinals and foul odors. Designed for professional maintenance of toilets and urinals, this heavy-duty descaler restores drain lines and P-traps to their original diameter, improving flow and hygiene. Safe for use on copper, steel, PVC, and ABS plumbing systems, **USR 2** delivers fast, effective results without damaging pipes.

#### FEATURES & BENEFITS

- Dissolves Uratic Salt and Calcium Scale
- Eliminates Foul Odors
- Heavy-Duty Acid Formula
- Safe on Copper, Steel, PVC, and ABS
- Works in Minutes or Overnight
- Ideal for Commercial and Industrial Restrooms

#### RECOMMENDED USES

- Toilet bowls
- Urinals
- Urinal drain lines

#### DIRECTIONS

**TOILET BOWL CLEANING:** To remove calcium and rust encrustations, discolorations and other deposits, flush and remove as much water as possible from the unit by plunging. Press swab against bowl to press out water. Apply USR 2 full strength to swab. Swab bowl and flush ring to remove rust and stains. Flush to rinse.

**URINALS:** To remove uric acid scale deposits in slow running urinals, pour 16 oz. of USR 2 into the p-trap of the urinal. Let work overnight and flush in the morning. For bad urinals, repeat if necessary until problem is eliminated. Use daily to remove long term buildups. Should be used weekly as a preventative maintenance solution.
